# CIVIL AVIATION TRAINING CENTER, THAILAND CATC

The Civil Aviation Training Center (CATC), Thailand, was established on 4 June 1961 as a cooperative project between the United Nations Special Fund (UNSF), the International Civil Aviation Organization (ICAO) and the Royal Thai Government.

On 5 March 1992, CATC became a state enterprise under the Ministry of Transport, responsible for developing human resources in aircraft maintenance, aircraft services, and other aviation-related services. The objective is to provide training, in various fields of the civil aviation industry, for local students and other countries. CATC quality training will enable them to perform their duties following international standards as stipulated by ICAO to ensure maximum aviation safety performance.

CATC not only has developed training curriculums for Bachelor of Engineering Programme (Avionic Engineering), Bachelor of Science Program (Aviation Science), Equivalent to Diploma Degree, High Vocational Certificate, Vocational Certificate as well as pilot training, but also has a specific unit to develop its short courses training to serve customers' needs. The training divided into 2 major groups; All ground training courses are training at CATC, Bangkok headquarter, while flying training courses are conduct at Flight Training Center, Hua Hin district. CATC has established a Light Aircraft Repair Center at the Flight Training Center in Hua Hin, which is officially certified by Thailand's the Civil Aviation Authority of Thailand (CAAT). The CAAT authorized

CATC to be Thailand's Official ICAO Language Proficiency Test Center since April 2011, responsible for the Testing and Rating of Licensed Pilots and Air Traffic Controllers following the Standards of ICAO.

## STANDARD RECOGNITIONS

TRAINAIR PLUS  
PLATINUM  
MEMBER

CAAT  
3 ATOS  
2 TESTINGS

Furthermore, CATC also offers Master's Degree in Aviation Management to raise academic standards and best prepare aviation personnel to meet the increasing demand of aviation industry.

CATC Thailand has been a member of the ICAO TRAINAIR Programme since 2012. We offer a wide range of ICAO courses that are designed to improve your professional career in aviation with ICAO provisions and recommendations.

Our Course Development Unit (CDU), ensures standardized training programs by employing the Instructional System Design (ISD) framework alongside the Competency-based Training and Assessment (CBTA) methodology. Leveraging the expertise of Subject - Matter Experts (SMEs) and accredited ICAO - Qualified Course Developers (IQCDs), we specialize in customizing curriculum development that precisely aligns with the unique training requisites of our clients.

In 2021, we enhanced the training standard by being accredited as the Regional Training Centre of Excellence (RTCE) in two areas of expertise: Air Navigation Services and Flight Safety and Safety Management.

In 2024, CATC is the only aviation-specialized training center in Thailand that has been recognized with the ICAO TRAINAIR PLUS highest membership, TCE Platinum.

CATC stands out as one of the nine Platinum members among 128 training centers from 77 countries worldwide. We are one of four countries in the Asia-Pacific region to achieve this ICAO top-tier recognition alongside Indonesia, the Republic of Korea, and Singapore.
